

GENERAL DESCRIPTION

A special-applications fluorescent strip for installations where space is limited.

Designed for ceiling mount, wall mount or chain hanging.

Knockouts provided for a convenience outlet and a pull switch.

SPECIFICATIONS

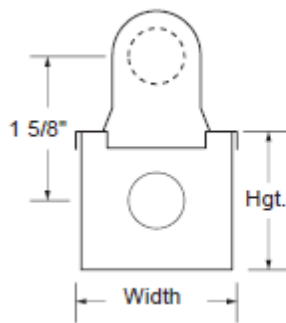

Housing: Heavy-gauge cold rolled steel. Close-tolerance snap-fit construction. End plates with 7/8" knockouts for continuous mounting.

Cover: Secures with two #8 x 5/16" sheet metal screws.

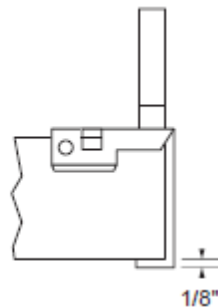

Finish: White polyester polymer with a minimum of 82% reflectivity.

Mounting: Designed for surface, stem or chain hanging. Can be installed as individual units or in continuous rows.
