

Prismatic

Clear Acrylic Micro Prism Acrylic with DR (High Impact Additive) lens provides excellent light distribution for more light in task areas. Lamp obscurity eliminates brightness.

Available in 2 foot and 4 foot lengths.

Indestruct-A-Puff

Manufactured from Dur-illum 2000 Copolyester, a revolutionary high strength optical plastic material. Impact test show that the Dur-illum 2000 outperforms impact modified acrylic many times with nearly identical optical properties – high transmission and smooth uniform color. Uses new patented plastic clip.
